This reports majors on the following points:

1. Pedagogical (on the work)
2. Social and moral
3. Events
4. Answers to various questions

1. Pedagogical

The 2017-2018 School Year started on Thursday 2/10/2017 at 7.30am. The teachers assembled to face new battles to educate the children.

The lessons started on 3/10/2017 in all classes and went well for the whole of this semester.

The pupils have already had 5 evaluations and the average/median mark for the school is: 8.76 /10.

2. Social and Moral

During this semester, the relationships between the staff, parents, administration and the pupils have been of good quality. The School has been visited several times by the Pedagogical Director to the Inspector, Education and Adviser Head of the BOBO2 District. During his visits, the teachers benefited enormously from his advice so they can improve further.

With the pupils, many late arrivals into School were recorded in December to mid January. This is because of the change in climate with the coming of the "Harmattan" wind between December and February. Some pupils fell ill then; others have coughs, stomach pains, colds etc.

The situation has now improved from mid January to the end of March. We give thanks to God for less late arrivals into School and less absences due to illness.

3. Events

- 06 October 2017 official giving of school kits to each of the 150 pupils.

- November 2017 death of the parent of a pupil (Ouattara Seydou)
- From 22 December to 4 January 2017 holiday of the first trimester
- From 05 January 2018 start of the lessons for the second trimester

16-17 January 2018 John and his friends came to the School to train the parents on the filtering of drinking water and give the filters to each family.
